Commissioners:

Between gas infrastructure and two brand new solar installations, of which one is the largest in the state, Dominion Energy has invested nearly \$1 billion in South Carolina in the few years they been doing business here. I want to see more of this and think that their record shows they will move the state forward.

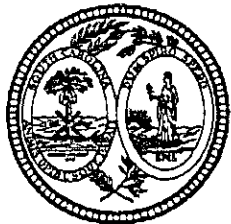

Industrial rates are high and the debacle over the failed nuclear project is not attractive to new businesses who might otherwise consider South Carolina for business development. The merger between SCANA and Dominion Energy would help bring closure, a plan, and some certainty to the state moving forward. We need this certainty and path forward to attract new business.

I support the combination of SCANA and Dominion Energy because I believe South Carolina needs a new partner to help us grow our state.

Larry Winfield Winfield

Dear Commissioners:

I support the merger between SCANA and Dominion Energy. This combination would be good for the state's economic growth at a time where it has been halted due to uncertainty.

Dominion Energy has a long and successful history of providing electricity and natural gas to customers in many other states, including Virginia, North Carolina, West Virginia and Ohio. The company is already a significant presence in South Carolina, operating efficiently and safely a system of 1,500 miles of natural gas transmission lines.

I think the facts demonstrate the best option for South Carolina's electric and gas customers and for the continued economic health and growth of our state is the combination of SCANA and Dominion Energy. Efforts aimed at blocking this combination or making it more difficult carry long-term hardships for the energy future of the state.
